## Braj Chaurasi (84) Kos Yatra (Introduction)

The 84 Kos Yatra is also known as the Braj Bhoomi Yatra as it covers the places and sites connected with the events of life of Lord Shri Krishna. The word Chaurasi literally means 84 and Kos is a unit for measuring distance in India, so 84 means, 252 km of distance covered in this pilgrimage. It comprises Vrindavan along with its 12 vanas (forests), 24 upvanas (groves) and the sacred hill Govardhan, the divine River Yamuna and numerous holy places along its banks. This journey is undertaken by millions of devotees coming from faraway places of India and abroad. Braj Bhoomi's 84 Kos Journey can be completed within 8-10 days with a planned itinerary by Car/Bus. Apart from Cars, many devout pilgrims also undertake this journey on foot, which takes around 45 days.

## Braj Chaurasi 84 Kos Yatra (Spiritual Significance)

Once Mata Yashoda and Nandbaba expressed their desire to go on pilgrimage before their son Lord Krishna. To fulfill their intense desire for pilgrimage, Shri Krishna invited all the sacred

Places to settle around Vrindavan. Since then circumbulating these shrines is known as 'Braj Chaurasi Kos Yatra' which releases us of all our sins, which ultimately helps to escape the cycle of birth and death (Chaurasi lakh yoni's or 8.4 million births **in different inferior species like Animals, Plants, birds and other spiritually ignorant creatures.**) and as a result help's one to attain Moksha (salvation). A number of important incidences in Shrimad Bhagawat Mahapuram have also glorified this braj Bhoomi, which had lead to the origin of Braj Mandal Yatra.
